

# AGRICULTURE

We're in an era of environmental sustainability, driving efficiencies, and reducing costs through innovation. With an ever-growing demand for crops, livestock, to fertilizers, we understand your need to expand infrastructure and optimize equipment. Stratus' experience in design-build construction, along with decades of experience in farming and agriculture, will help you create value for your stakeholders. Let's talk about improving your project results — we're up for the challenge.

## PROJECT PROFILE LENTIL SPLITTING/PACKAGING

Scope: Complete electrical design/build and construction of a lentil splitting and packaging plant  
Location: Verwood, SK  
Completion: 12,000 hours in 12 months  
Highlight: The equipment was ordered from Turkmenistan and our team had to work closely with an interpreter (and often Google Translate)

## PROJECT PROFILE CONSTRUCTION & MAINTENANCE

Scope: Design/build new feed mills, construction of riding arenas, design of power distribution, power factor correction unit installs, troubleshoot PLC controlled operations and various maintenance projects.  
Location: across Western Canada  
Highlight: Coupling our construction expertise and farming background to save money and create efficiencies

## PROJECT PROFILE FERTILIZER BLENDING

Scope: Complete electrical construction of a fertilizer blending facility  
Location: Luseland, SK  
Completion: 3,000 hours in 4 months  
Highlight: We helped to customize the client's facility design to suit their precise requirement

Get project updates you need, without the wait — from labour-costs-to-date, committed material, safety/quality reports, work tickets, etc. We use a paper-free, real-time reporting system that's linked to our accounting software (*no chance for pesky human errors*). You'll have unrestricted, 24/7 access and every report is setup the way YOU like it.

It's easy to work with us. Our people genuinely care about what they do, they're helpful, and happy at Stratus - ask them and it shows. We spend a lot of time and energy developing our team because they're the difference makers. They're responsible for each other's safety and the quality put forward. Plus, it's better working with people you like.

A headache-free project is based on a stellar plan and the ability to communicate it. Our PMs have the experience, training and proven systems to ensure a smooth project from pre-construction through to turnover.
